Summary

Aspiring Electronics and Communication Engineer | Passionate Programmer | Frontend Developer

Hi, I'm Vasu Patel, an EC engineering student with a strong passion for programming, problem-solving, and web development. I specialize in creating responsive and user-friendly web solutions using HTML, CSS, Bootstrap, and emerging technologies.

I thrive on tackling challenges, from building a Responsive Casino Website to designing a Zerodha Clone, showcasing my creativity and technical expertise. With certifications in frontend development and problem-solving from NSDC and HackerRank, I'm constantly honing my skills in Java, C, and C++, as well as data structures and algorithms.

Core Competencies:

Frontend Development: Responsive Web Design, Bootstrap, jQuery

Programming Languages: Java, C, C++

Problem-Solving: Algorithms, Data Structures

Achievements:

Built a responsive casino-themed website and a frontend Zerodha clone.

Certified in frontend development and problem-solving.

I'm eager to connect with like-minded professionals and collaborate on exciting projects that drive innovation. Let's connect and build something incredible!
